

EORTC promotes multidisciplinary cancer research in Europe. EORTC research is conducted in over 300 university hospitals in 32 countries. Its network of investigators comprises more than 2500 scientist and clinicians collaborating in 20 multidisciplinary groups.

The EORTC research facility based in Brussels has a vacancy for a:

Medical Research Fellow

The research fellow will be involved in an ambitious research program comprising of broad based research questions, analysis, presentation and dissemination of results. This work will possibly result in major publications and presentations at key oncology scientific conferences.

Therefore the fellowship offers an excellent opportunity for wide training in cancer clinical trial methodology in a multidisciplinary environment including clinical trial design, statistics, operations, implementation and conduct.

The fellowship is for a duration of one year, renewable to a maximum of 3 years at the EORTC Headquarters in Brussels, Belgium.

Candidates must:

- be a young oncologist
- have a focus or interest in cancer clinical research
- preferably have clinical research background
- be fluent in English
- be computer literate
- be able to work in an international environment
- have excellent communication skills and team spirit
- be under 35 years old

Candidates must send:

- a letter of motivation
- a full curriculum vitae
- the list of their areas of interest
- letter of recommendation from 2 referees
